

Maine Independent Clinical Information Service (MICIS)
Maine's Academic Detailing Program

Academic Detailing Topics Winter/Spring 2025

What is Academic Detailing?

- **One-hour interactive session for medication prescribers**
- **Individualized to a prescriber's learning needs**
- **Delivered to a single prescriber by a specially trained peer at no cost**
- **Request a session at micismaine.org/contact/.**

OUD and Buprenorphine

- Review the diagnostic criteria for opioid use disorder.
- Compare the three medications available to treat OUD with a focus on buprenorphine.
- Discuss Harm Reduction strategies for OUD treatment.

**Controlled Substance Prescribing in Maine:
Requirements and Recommendations**

- Review the best practice recommendations for controlled substance prescribing.
- Evaluate Maine-specific laws and rules pertaining to prescribing opioids.
- Discuss the 2022 CDC Opioid Prescribing Guideline recommendations.

Simplified Treatment of Hepatitis C in Primary Care Settings

- Discuss diagnostic testing and guidelines for primary care based treatment of Hepatitis C.

Diabetes Update Focusing on GLP-1s and SGLT-2s

- Review the properties, risks and benefits of these medications approved for diabetes and obesity.

**The Maine Independent Clinical Information Service
is a program of the Maine Medical Association.
